EXPERIENCE

Wyzant | Computer Science Tutor

NOVEMBER 2019 - PRESENT | Online

- Served as an online tutor for Computer Science focused on the programming language Java
- Explained and answered Java concepts and helped with assignments and projects through an interactive digital classroom

Math Space | Mathematics tutor

AUGUST 2019 - DECEMBER 2019 | Charlestown, MA

- Assist students individually with math work, covering math concepts and helping students excel in their problem solving skills
- Instructed students on proper use of mathematical software and ensuring hardware/software was functioning properly on computers in math lab

PROJECTS

CS Book Store — Ecommerce website | Full Stack [website](#) [source code](#)

- A complete Full Stack development project which includes a web application, server, client side and database.
- Used HTML and CSS for prototyping user interface, Java Servlet for server-side scripting, and MySQL database for managing user and book inventory.
- Apache Tomcat for deployment

Shopr — Android mobile app [source code](#)

- Online marketplace java-based mobile application that lets users buy and sell items within the platform
- Integrated the Firebase API for server side configurations, real time database storage and user authentication

Designer Nail Salon — Business Website [website](#) [source code](#)

- A complete fully responsive nail salon website, made with Bootstrap, Java Servlet, JSP, HTML, CSS, and VanillaJS. Website includes a home, book online, services, and reviews page
- Used the JavaMail API to implement a Simple Mail Transfer Protocol (SMTP) to send appointment forms to business email submitted by customers.

Note Taking App — Android mobile app [source code](#)

- Note taking Android mobile application that includes a JSON formatted database
- Used an open source HTTP library 'Volley' for server configurations
- Users are able to register and log in, take notes, save them, and share them with other users within the server
